**Qualifications and Skills:**

I am a Junior Software Developer focusing on Python, currently pursuing a Bachelor's degree in Computer Science at FSG - Centro Universitário da Serra Gaúcha, expected to graduate in 2026. I completed high school at Escola Estadual Ensino Médio Rachel Calliari Grazziotin in 2022. In addition to my Python skills, I have experience in various other technologies and areas, such as Back-end, Front-end, Data Analysis, and Machine Learning. I hold several certifications that complement my education. The "Jornada Python" by Hashtag Treinamentos, issued in March 2024, validates my Python skills. I also obtained the "SQL Language from Zero to Advanced" certification from AcademiaDB CreateSe, which covers knowledge in databases, PostgreSQL, MySQL, SQL, and relational database development. Additionally, I am certified in "PHP - Programming" by Flexxo - Centro de Capacitação em TI, acquiring skills in MySQL, programming languages, software development, Laravel, PHP, and PHP frameworks. I complete my profile with a certification in "Programming Logic" from Flexxo, which reinforces my competence in program development, programmable logic, and various programming languages. I am always seeking new challenges and opportunities to expand my knowledge and skills in the technology field. I am proactive, with a quick learning ability, excellent teamwork and communication skills, and a strong commitment to technical excellence. I constantly look for ways to enhance my skills and make a difference.

**Education:**

- Bachelor's in Computer Science, FSG - Centro Universitário da Serra Gaúcha, 2026

**Computer Skills / Systems:**

- Office Package
- Windows and Linux (Ubuntu)

**Extracurricular Courses / Training / Lectures:**

- Jornada Python, Hashtag Treinamentos, 2024
- SQL Language from Zero to Advanced, AcademiaDB CreateSe, 2024
- PHP – Programming, Flexxo - Centro de Capacitação em TI, 2023
- Programming Logic, Flexxo - Centro de Capacitação em TI, 2022

**Languages:**

- English – Basic level;
- Portuguese – Advanced level.
